THE MARKET WAS DULL

Sentiment Over Future of Stocks is Discouraged.

NO PRESSURE TO SELL

The Buying Demand was, However, Im perceptible and Prices Sagged. Money Rate Did Not Go Above Four and a Half per Cent.

(Ry Associated Press.)

NEW YORK, July 2.—Another speculative anticipation was disappointed by the section of to-day's market. This was what, with the Pennsylvania stock subscription, and the semi-annual requirements on the money market out of the way, some speculative interest in stocks would be aroused. To-day's money markets reflected clearly enough the reflux of funds after the tying up incident to the settlements. Some doubt is felt over the showing of the weekly bank statement, which will be published to-morrow, owing to the Saturday holiday. It is expected that this will show the effects of the large operations incident to the beginning of the fiscal year. The maximum call loan rate to-day was 41-2 per cent, compared with 6 per cent, yesterday, and 19 per cent, on Tuesday. A bank statement unfavorable on its face is not likely, therefore, to be a factor in the speculation. But the casing money market failed to help the stock market. There was no urgent pressure to sell, but the buying demand was almost imperceptible, and prices sagged heavily throughout the session. The approach of the holiday was a possible influence on the dullness, especially as many members are preparing to leave town this evening until next week. It would be difficult to hit upon any one factor as the dominant cause of the weakness, but sentiment in speculative circles over the future of values is undoubtedly discouraged. London reported some selling of Americans on lears of a disturbance of our relations with the Russian government, but there was no trace of this feeling in New York. Reports of pluns of reorganization for additional industrial combinations and the terms proposed created a distinctly bad impression, although the securities affected are not dealt in on the Brock Exchange. The favorable nows from the crop region and the day's report of railroad carnings, including the Pennsylvain decrease for May, afforded no assistance in advancing prices. In the bond market some of the older issues tended downwards. The semi-amoul i

MONEY AND EXCHANGE—CLOSE: Money on call, firm, 3 3-495 per cent; closing, 4 1-295 per cent; time money, casier; sixty and finety days, 4 per cent; six months, 6 per cent; prime mercantile paper, 5 1-296 3-4; sterling exchange, firm, with actual business in bankers bills at \$487.39487.35 for demand and at \$485.1962.15 for sixty days; posted rates, 545.1-2; and \$488.1-2; commercial bills, 548.3-4985.1-5; bar silver, 52 7-8; Mexican dollars, 44.

Wall Street Gossip.

(Secial to The Times-Dispatch.)

NEW 10RK, July 2,—The opening of the market was easier. The lower London prices had some effect, more in the direction of checking local speculation than in anything checked the larger professions is gave no very clear indication is to their attitude in the early trading.

The mirket was decidedly heavy in the first our, and in stocks developing activity showed

hour, and in stocks developing activity showed declines, was evidence of pressure from at least one specialize interest, and the traders seemed include to follow the lead.

With out-of-town orders the commission boltes had were mostly sales.

The maket became extremely dull in the second hour, but the early declines were for the most part checked. The solling looked better than the huying as a rule, but there was no distribution to press tock, and the volume of batters looked like failing off to the inactive level of last week.

position is presented by the fractive level of last week.

Total sake during the first two hours, 125,000 shares of stocks and \$717,000 bonds.

In the market early in the afternoon it was quite weak on light volume of trade.

The uncertainty as to the bank atstement made room traders a little cattlous, although there was some professional support. Total sales to 2 P. M. 222,500 shares of stock.

A few scattering purchases for room traders, who had sold early in the day, typresented the market trading during the last hour, and market trading during the last hour, and market closed dull and at the lowest of the day. Total sales for the day, 270,000 shares.

NEW ORLEANS, July 2.—COTTON—Spet cotton market shows no material change. There is no cotton for sale here except to consumers, Quotations unchanged.

Futures at the opening were quiet and steady. The bearish induces were heavier declines in Liverpool than expected and a more favorable weather map. In spite of these bearish inducences those on the inside gave their following the advice that it was time to buy. The window of this advice was seen when a large intensic composed of senipers and room traders, while the Code showed her same the market up for moderately aubstantial gains on the winter mentis, while the close showed net same of 627 points from October to fanuary inclusive. The later months were steady at about last evening's figures.

ICE AND COAL MEET AT SEA

Schooners Laden With These

news of a collision between the Palmer and the four-masted schooner Young Brothers, off Montauk Point last Sunday

morning.
The Palmer was bound from Newport The Fainier was bound from Newport News to Boston with coal, and the Young Brothers was on her way from Bath, Me, to Washington with ice. The collision occurred between 12 and 1 o'clock in the morning in a thick fog. The ex-tent of the damage to the Young Brothers was not ascertained, but as the ves-sels came together head-on it is thought she may have fared about as badly as the other schooner, and that she will be able to reach port. The Palmer proceeder for Boston.

TO BUILD A MODEL ROAD

Government Experts to Be Electric Lighting, Electric Rall-Sent to Natural Bridge.

WASHINGTON IS WARM

Mercury Registered Above the Hundred Mark and Business is Paralyzed. Many Going to Culpeper Horse Show To-Day.

> The Times-Dispatch Bureau, No. 1417 G Street, N. W., Washington, D. C., July 2d, 1903

Thermometers in some parts of this city to-day registered as high as 102 degrees in the shade. At noon the mercury in the tube hanging under the awning in front of the Ebbitt House, at Fourteenth and F Streets, N. W., was at 1915.

teenth and F Streets, N. W., was at 1935. At 1 o'clok it stood at 10235, and remained stationary for an hour or two.

There were only two places in the United States yesterday where it was hotter than the national capital, and Washingtonians are inclined to think there were none to-day. The intense heat has had the effect of practically paralyzing business. Everybody who is seen on the streets in the hot portion of the day is there just because business prevents his bein anywhere else, otherwise he would be in the shade and under an electric fan, if possible.

It was stated by an official of the Department of Agriculture to-day that two experts from the Good Roads Division of the Department would probably be sent to superintend the building of a road from Natural Bridge union station on the Norfolk and Western and Chesapeake and Ohlo Railways, to the Natural Bridge, a distance of about three miles. Mr. John Stuart Walker, of Lyachburg, the president of the Natural Bridge Company, his requested that the experts be sent, as it is desired to make the road a model and an object lesson. The cost of the road, which is to be macadamized, will be borne by the company and the county jointly. The roads of Rockbridge county are said to be in worse condition now that in years.

"It isn't generally known that Jesse It was stated by an official of the De-

"It isn't generally known that Jesse Commodities Collide

Head-On.

(By Associated Press.)

VINEYARD HAVEN, MASS., July 2.—

With bowsprit and head gear gone, the five-masted schooner Rebecca Palmer reached this port last night, bringing pows of a collision between the Palmer.

By Associated Press.)

With bowsprit and head gear gone, the five-masted schooner Rebecca Palmer reached this port last night, bringing men."

But the generally known that Jesse and Frank James are of Virginia and the Metropolitan Hotel this morning, just after a man, said to be Frank James, had passed through the lobby. James is connected with a Wild West aggregation. "Yes, sir, the James boys are of Virginia blood, as I happen to know, and I have no doubt that some of that name in Virginia to-day are related to the famous highway-men." But the gentleman didn't specify.

The plans for the celebration of the Fourth of July in Washington contemplate exercises and ceremonies on a more extensive scale than in years. All the District military, several detachmonis of United States troops and various fraternal organizations will be in the parade. General S. M. B. Young, chief of the general staff of the army, virtually commander in chief, will be in command.

A number of Washington people will go to Chipeper to-morrow to attend the horse show, which will be in progress there July 3-4.

General Manager L. E. Johnson, of the Norfolk and Western, is in Washington to-day on business. An official of an-other road expressed to me the opinion a few days ago that there was not an abler railroad manager in the South than Mr. Johnson. Mr. Johnson. Mrs. J. A. Barron, Misses M. Barron and S. Barron, of Abingdon, are at the Na-

tional, C. M. White, Jr., of Warrenton, is at the Metropolitan.

All Hope Abandoned.

By Associated Press.

HANNA WYO., July 2—Of the Mi men entombed by the nine explosion on Tuesday, the bodies of only five have been recovered, and all hope that any of the others are alive has been abandoned. Fire and smoke are preventing exploration of the lower workings and it is feared that many, if not all, of the bodies now in the mine will be consumed.
